PROFESSIONAL SUMMARY

- Computer Science undergraduate with 2+ years of experience building full-stack web applications using MERN stack technologies
- Proficient in React.js, Next.js, Node.js, and MongoDB with hands-on experience shipping 50+ production-ready projects
- Demonstrated ability to optimize application performance, achieving 25% efficiency improvement through React component optimization
- Strong foundation in REST API integration, authentication systems, and responsive UI/UX design
- Seeking remote opportunities and international internships to contribute to innovative development teams

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Bootstrap, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, Appwrite

Databases: MongoDB, Appwrite Database

Tools: Git, GitHub, VS Code, Vite, Vercel, Chrome Extensions

PROJECTS

Ubaid Rope | E-Commerce Platform

- Tech Stack: Next.js, TypeScript, Tailwind CSS, WhatsApp API Integration
- Built a full-featured e-commerce application with product catalog, cart functionality, and WhatsApp Order Now feature
- Implemented responsive UI with Tailwind CSS and deployed on Vercel for production-ready performance

Postify | Full-Stack Blog Application

- Tech Stack: React.js, Appwrite, Bootstrap, Vite
- Developed a complete blogging platform with full CRUD operations for posts and user authentication
- Integrated Appwrite backend services for database management and secure user authorization
- Built reusable React components for post listings, forms, and user dashboards

ViraBank | Banking Interface Simulation

- Tech Stack: HTML5, CSS3, JavaScript (Vanilla)
- Created a comprehensive banking dashboard with account creation, balance tracking, and money transfer features
- Implemented client-side validation, withdrawal functionality, and intuitive user flow design
- Focused on UI/UX behavior with structured layouts and responsive design principles

WeatherCast | Real-Time Weather Application

- Tech Stack: JavaScript, REST APIs, CSS3, HTML5
- Developed a weather application integrating third-party APIs for real-time weather data retrieval
- Reduced API response time by 50% through efficient data fetching and caching strategies
- Implemented responsive design for cross-device compatibility

OpenChatPDF | Chrome Extension

- Tech Stack: JavaScript, Chrome Extension APIs, PDF Generation
- Built an open-source Chrome extension enabling users to save ChatGPT conversations as PDF documents
- Implemented content script injection and background service workers for seamless functionality

EXPERIENCE

Web Development Intern | CodeAlpha (Remote)

- Contributed to real-world projects in a professional development environment
- Collaborated with senior developers to implement features and resolve technical issues
- Applied agile methodologies and version control best practices using Git and GitHub

EDUCATION

Bachelor of Science in Computer Science

- Abdul Wali Khan University, Mardan | Expected Graduation: July 2027
- GPA: 3.61/4.0 | Relevant Coursework: Data Structures, Algorithms, Web Development, Database Systems

CERTIFICATIONS

- HTML, CSS and JavaScript for Web Developers - Johns Hopkins University (Coursera)
- Responsive Web Design - freeCodeCamp
